Entertainment City, Philippines— Manila's largest Forbes Five star integrated resort, Okada Manila, and the country's leading food delivery service, GrabFood, partnered up this Father's Day to share sweetness and joy with their delivery partners. "Okada for You: Food for essential workers" is done in appreciation of their work and dedication in making sure that vital food items would reach those who opt to stay at home.

Food gift boxes from the Okada Manila's Lobby Lounge were distributed to four (4) GrabFood sites in Manila, namely Greenfield, Marikina, South Park, and Valenzuela, so riders can have pastries they can enjoy with their families and celebrate Father's Day.

"Riders make sure that those of us who stay home get the meals that we need. Through their work, a lot of us are kept safe, so we'd like to show some gratitude by sharing some pastries they can enjoy with their families. It's a small and simple way we can express our thanks," shares Okada Manila SVP for Premium Marketing Shirley Tam.

"Our delivery-partners render essential services for many of our kababayans especially during these trying times. We are proud to stand with them and are committed to helping them achieve long-term success through and on our platform. This initiative with Okada Manila is an expression of our ongoing commitment to delight, support, and champion our partners. We hope that through this gesture, we are

able to give our delivery-partners some additional joy and delight as they also celebrate Father's Day with their families," remarks Anton Bautista, Head of Deliveries for Grab Philippines.

Early this year, Okada Manila also provided support to frontliners by donating state-of-the-art UV disinfection tools to the Department of Health. In addition, the integrated resort gave essential items such as bed sheets, pillow cases, towels, and linens to the Philippine Red Cross' isolation facilities for COVID-19 patients.
